at home... at the Stanglwirt*

## *Welcome to the Stanglwirt!*

Our establishment is characterised by 400 years of hospitality and its traditional history as a renowned hotel at the foot of the ‘Wilder Kaiser’ mountains, surrounded by the charming nature of the Alps, dates back to 1609. Quality and the feeling of being ‘at home’ are the most important criteria for the well-being of our valued guests, then as now.

At the Stanglwirt, high quality is reflected in the attention to detail with which the hotel has been furnished and the soothing pine wood in all of our rooms.

We place particular importance on carefully selecting the foods used in our kitchens. Most are home-produced or else come from farmers in the region.

The most important thing of all for us are the guests. It is the encounters between the guests, hosts and employees which inspire us and ensure the well-being of our guests. We therefore invest a great deal of time in our guests and pamper them with a friendly and attentive service.

We very much hope to welcome you and your valued guests or employees to the Biohotel Stanglwirt soon!

Your hosts Balthasar Hauser and family  
and the entire Stanglwirt team

A healthy mind resides in a healthy body. That's why we select our food very carefully, paying particular attention to ensuring the highest quality and spoiling you with organ produce from our own farms or from regional farmers.

6 different restaurants await, serving culinary delights and exquisite wines, including the famous 'Stangl-Alm'. In summer, our guests enjoy our sunny 'pleasure terrace' with views of the Wilder Kaiser.

A striking trademark of the Stanglwirt: the legendary Kuhstall (cowshed) lounge. This restaurant offers views of the cows and calves and is a truly special experience, renowned far beyond the local area.
